

FADE RESISTANT GAZEBOS

Our Fade Resistant Displays are printed with state-of-the-art Latex Gen-4 inks, boasting the widest colour gamut on the market.

This allows us to print the widest range of colours within the colour spectrum and produce the most vibrant and vivid print results.

The inks have a low environmental impact, are UV stable and scratch resistant, providing great durability for long-term outdoor exposure.

Premium polyester fabric with a unique print-guard coating is used for all of our Fade Resistant Gazebos.

FADE RESISTANT GAZEBO
1 X 1M KIOSK
